INFORMATION ABOUT PERMIT PARKING

Permit parking is implemented on either a street name basis where parking is restricted to one specific street or on an area basis where a number of streets have been grouped into permit areas in order to maximize parking.

A permit holder who parks on a street authorized for permit parking must park in a legal parking space subject to existing traffic regulations. In addition, the vehicle registration must remain valid and the validation sticker must be affixed to your licence plate, while you are a permit holder.

Permits issued on an area basis will have the corresponding area shown on the face of the permit. **A permit holder with such a permit may park on any street authorized and signed, which bears the same area code.**

Permits issued on a street-name basis will have the street name typed on the face of the permit. **Holders of this type of permit may park only on the authorized and signed sections of the street for which the permit is issued.**

As a permit holder, you must comply with all **NO PARKING signs** (for example, NO PARKING 7:00 a.m. to 9:00 a.m. etc.). However, you may ignore those signs on your street or in your designated area which limit parking to one, two or unsigned three hour parking restrictions.

A vehicle with a valid permit which remains parked in the same location on a street for more than seven days may be tagged and towed at the owner's expense. Vehicles without parking permits may be tagged if parked in a permit parking space during the licenced parking hours shown on the signs. Vehicles without parking permits are limited to three-hour parking, unless otherwise posted.

The Permit Parking By-law is enforced by Toronto Police Service, Parking Enforcement Unit. Contravention of the by-law may result in the loss of your permit parking privileges.
